SUMMARY

Full Stack Developer with hands-on experience building and deploying web applications. Currently working on real-world projects while exploring AI/ML and Generative AI to enhance application capabilities.

EDUCATION

Central University of Haryana

B.Tech in Computer Science & Engineering

Mahendragarh, Haryana

Aug. 2023 – July 2027

EXPERIENCE

Ignix Social

June 2026 – Present

Web Developer Intern

Remote

- Developed and maintained responsive web features using React.js and Node.js, collaborating with cross-functional teams to ship production-ready code.
- Containerized application services with Docker and supported deployment on AWS, improving build consistency and release workflows.

Labmentix

May 2025 – July 2025

Full-Stack Developer Intern

Remote

- Designed and developed full-stack web solutions integrating React.js frontends with Node.js/Express backends and MongoDB databases.
- Built and secured RESTful API endpoints, optimized server-side performance, and ensured seamless client-server data flow.

GirlScript Summer of Code

Sep. 2024 – Nov. 2024

Open-Source Contributor

Remote

- Refactored components and enhanced cross-device responsiveness across multiple web-application projects.
- Redesigned UI elements for improved accessibility, boosting Lighthouse UX scores by ~20%.
- Resolved critical bugs and collaborated with maintainers via detailed pull requests and GitHub Issues.

PROJECTS

AI Resume Analyzer | *React, Node.js, Groq API, Supabase* |

2025

- Built a full-stack AI-powered app that analyzes resumes against job descriptions via the Groq LLM API, returning a match score, missing skills, and personalized improvement tips.
- Implemented multi-format resume parsing (PDF, DOCX, PNG/JPG) using `pdf-parse` and `mammoth`, integrated Supabase for cloud persistence, and deployed on Vercel.

Code Room | *React, Node.js, Express, Socket.io* |

2025

- Developed a real-time collaborative coding platform with a client-server architecture supporting live code sharing between users.
- Built a React-based frontend editor paired with a Node.js backend handling session logic, ensuring seamless synchronization across multiple clients.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C/C++, SQL, HTML/CSS

Frontend: React.js, Next.js, Vite, TailwindCSS, Bootstrap

Backend: Node.js, Express.js, Flask, REST APIs

AI / ML: Groq API, OpenAI API, LLM Integration, Generative AI, Agentic AI (learning)

Databases: MongoDB, PostgreSQL, Supabase

Tools & Platforms: Git, GitHub, Postman, Docker, AWS, Vercel, VS Code

COMPETENCIES

Communication • Teamwork • Adaptability • Problem Solving

LANGUAGES

English: Professional Proficiency

Hindi: Native Proficiency
